Excel                Easyworship

Language

Youruba    English

Experience description

I am a **self-taught Frontend Developer** with hands-on experience in building **responsive, interactive, and user-friendly web applications**. Since I started my journey in **October 2023**, I have gained strong Understanding in **HTML, CSS, JavaScript, and Tailwind CSS**, and I am currently expanding my expertise into **React.js** to build more dynamic and scalable applications.Throughout my learning, I have worked on several projects that have helped me refine my **problem-solving skills, UI/UX design principles, and API integration techniques**.
